77 Secrets about Life: Manual for Superior Minds James Bond

The mind of human beings is similar to a hard acreage, and this book is like a hoe:

thanks to the thoughts here included, new plants and flowers will grow.

I cannot be sure about the source of the following sentences. It seems to me they came from a secret world, a world that is better than this, where we are all struggling without sense.

It's time to improve the level of our mind activity, if we want to live in a better place, so don't be surprised if at the end of these pages you won't be the same, forever: this is the reason why you are reading these words now, to be at your best.

Have a Good Revolution.
