Another Little Piece of My Heart: My Life of Rock and Revolution in the Sixties Richard Goldstein

In 1966, at the ripe age of 22, Richard Goldstein approached *The Village Voice* with a novel idea. "I want to be a rock critic," he said. "What's that?" the editor replied.

It was a logical question, since rock criticism didn't yet exist. In the weekly column he would produce for the *Voice*, Goldstein became the first person to write regularly in a major publication about the music that changed our lives. He believed deeply in the power of rock, and, long before it was acceptable, he championed the idea that this music was a serious art form. From his unique position in journalism, he saw the full arc of events that shaped culture and politics in the 1960s and participated in them, too.

He toured with Janis Joplin, spent a day at the Grateful Dead house in San Francisco, and dropped acid with Brian Wilson and the Beach Boys. He was present for Martin Luther King's "I Have a Dream" speech, the student uprising at Columbia, and the riots at the 1968 Democratic Convention. He was challenged to a boxing match by Norman Mailer and took Susan Sontag to her first disco. Goldstein developed close relationships with several rock legends—Janis Joplin and Jim Morrison, to name two—and their early deaths came as wrenching shocks, fueling his disillusionment as he watched the music he loved rapidly evolve from a communal rite to a vast industry—and the sense of hope for radical social upheaval fade away.

Another Little Piece of My Heart is the intimate memoir of the writer as a young man with profound ambition. It is also a sweeping personal account of a decade that no one else could provide—a deeply moving, unparalleled document of rock and revolution in America.
