## **El campo/The Field (Spanish Edition)** Lynne McTaggart

Lynne McTaggart, indefatigable investigative journalist, reveals a radical new biological paradigm that on our most fundamental level, the human mind and body are not distinct and separate from their environment but a packet of pulsating power constantly interacting with this vast energy sea. The Field is a highly readable scientific detective story that offers a stunning picture of an interconnected universe and a new scientific theory that makes sense of supernatural phenomena. Original, well researched and well documented, this is a book of hope and inspiration for today's world. Los experimentos descritos en este libro demuestran que la realidad no es como la imaginamos y aportan pruebas científicas sobre los sucesos paranormales, la videncia, el poder de la oración, la homeopatía, la curación espiritual y el instinto de los animales, por citar sólo algunos de los temas implicados.
