Linux Security: Craig Hunt Linux Library

Ramón J. Hontañón

Linux Security: Craig Hunt Linux Library Ramón J. Hontañón

This book provides authoritative answers to all your Linux Security Questions. Specifically for Linux Administrators, this is the most complete, most advanced guide to Linux security you'll find anywhere. Written by a Linux security expert with over a decade of experience, "Linux Security" teaches you, step-by-step, all the standard and advanced techniques you need to know to keep your Linux environment safe from threats of all kinds. Hundreds of clear, consistent examples illustrate these techniques in detail - so you stay on track and accomplish all your goals. The coverage includes: understanding information and system security procedures; developing a corporate security policy; designing and deploying an effective system and network monitoring strategy; managing the network services offered by Linux servers; and understanding Sendmail security, including authentication and privacy; providing application-level mail security using PGP; and designing and deploying an Apache HTTP server, including SSL extensions, securing your Samba server, building a network layer firewall using IPtables and Linux kernel v.2.4 , using the NEC SOCKS5 transport layer firewall, deploying the TIS firewall toolkit, offering secure remote connectivity with IPsec and PPTP VPNs, adding strong user authentication to Linux servers using Kerberos, and understanding the Linux Pluggable Authentication Modules (PAM).

From reader reviews:

John Harrison:

Book is usually written, printed, or outlined for everything. You can learn everything you want by a guide. Book has a different type. To be sure that book is important point to bring us around the world. Close to that you can your reading proficiency was fluently. A guide Linux Security: Craig Hunt Linux Library will make you to become smarter. You can feel far more confidence if you can know about anything. But some of you think that open or reading a book make you bored. It is not make you fun. Why they can be thought like that? Have you looking for best book or appropriate book with you?

Gladys James:

Reading a e-book tends to be new life style in this era globalization. With examining you can get a lot of information which will give you benefit in your life. Together with book everyone in this world may share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their own reader with their story or perhaps their experience. Not only the story that share in the guides. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book that you can get now. The authors on this planet always try to improve their expertise in writing, they also doing some analysis before they write with their book. One of them is this Linux Security: Craig Hunt Linux Library.

Samantha Flowers:

Playing with family in the park, coming to see the marine world or hanging out with good friends is thing that usually you have done when you have spare time, in that case why you don't try thing that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love Linux Security: Craig Hunt Linux Library, it is possible to enjoy both. It is very good combination right, you still need to miss it? What kind of hangout type is it? Oh occur its mind hangout fellas. What? Still don't buy it, oh come on its named reading friends.

Darlene Gutierrez:

Reading a book to become new life style in this yr; every people loves to study a book. When you study a book you can get a lots of benefit. When you read textbooks, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you would like get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this sort of us novel, comics, and soon. The Linux Security: Craig Hunt Linux Library will give you new experience in studying a book.
