Excellent social work education and training is vital for ensuring best practice, and it is important to understand the key approaches and methods in order to provide the best teaching and ensure effective learning. This volume provides an overview of social work education, including the background and current context. It covers the key debates surrounding social work education, such as the evaluation of Social Work Education, the use of IT, research mindedness, and the effectiveness of interdisciplinary education. The book also offers guidance on effective teaching and learning approaches tailored to the needs of social work educators, covering teaching within a higher education institution, on student practice placements, and in post-qualifying settings. This will be an indispensable text for educators and trainers in the field of social work. This topical series examines areas of particular interest to those in social and community work and related fields. Each book draws together different aspects of the subject, highlighting relevant research and drawing out implications for policy and practice.
