Basics Project Planning Hartmut Klein

The main task of the classical architect is project planning, from basic evaluation to design all the way to execution planning, the call for bids, construction management, and completion of the building. This volume explains the individual planning steps in context, presents the networking of the various specialists involved in the project, and offers a clear and practical description of the various levels of organization. Themes are - Planning steps from basic evaluation to handing over the keys, - Project participants (including the authorities, specialized planners, construction firms, etc.), - Organizing the plan (sequence, what's needed when?, work organization, documentation), - Coordination of the participants.
