Thoroughly updated to reflect all of the latest concepts and advances in the field, this **concise, extensively illustrated** text presents the basic science and clinical application of cellular and molecular biology. Functioning as a combined text and atlas, it is essentially **two books for the price of one** providing a **comprehensive, visually engaging** histology education from the ground up. Illustrations, tables, PowerPoint™ presentations, chapter summaries and multiple choice questions facilitate comprehension of concepts, and clinical correlations underscore the **practical relevance** of the material.

- **Superb illustrations**-including photomicrographs, electron micrographs, schematic diagrams and drawings-provide a **visual grasp and easier retention of difficult concepts**.
- Online PowerPoint™ slides, prepared by the author, offer a convenient way to review the most essential information from the text.
- **Clinical correlations** throughout the text demonstrate clinical applications and reinforce the idea that histology is pertinent not only to pathology and physiology, but in fact comprises one of the essential bases of clinical practice.
- New! "**Pathological Considerations**" section at the end of each chapter.
- **Helpful tables provide** an at-a-glance summary statement of key points.
- **Bolded key terms, bulleted lists and chapter summaries** emphasize the "need to know" information in every chapter.
- A combination of **USMLE-style questions and image based questions** in each chapter.
- Student Consult eBook version included with purchase. This **enhanced eBook experience** allows you to search all of the text, figures, and references from the book on a variety of devices.
