The Middle Years

Henry James

The Middle Years Henry James

If the author of this meandering record has noted elsewhere^[1] that an event occurring early in 1870 was to mark the end of his youth, he is moved here at once to qualify in one or two respects that emphasis. Everything depends in such a view on what one means by one's youth—so shifting a consciousness is this, and so related at the same time to many different matters. We are never old, that is we never cease easily to be young, for all life at the same time: youth is an army, the whole battalion of our faculties and our freshnesses, our passions and our illusions, on a considerably reluctant march into the enemy's country, the country of the general lost freshness; and I think it throws out at least as many stragglers behind as skirmishers ahead—stragglers who often catch up but belatedly with the main body, and even in many a case never catch up at all. Or under another figure it is a book in several volumes, and even at this a mere instalment of the large library of life, with a volume here and there closing, as something in the clap of its covers may assure us, while another remains either completely agape or kept open by a fond finger thrust in between the leaves. A volume, and a most substantial, had felt its pages very gravely pressed together before the winter's end that I have spoken of, but a restriction may still bear, and blessedly enough, as I gather from memory, on my sense of the whole year then terminated—a year seen by me now in the light of agitations, explorations, initiations (I scarce know how endearingly enough to name them!) which I should call fairly infantine in their indifference to proportions and aims, had they not still more left with me effects and possessions that even yet lend themselves to estimation.
