The Russian Economy: From Lenin to Putin

Steven Rosefielde

The Russian Economy: From Lenin to Putin Steven Rosefielde

The epic tale of the Soviet Union's quest to construct a socialist economy was, until recently, the principal motif of textbooks on the Russian economy. Rosefielde's new text offers a more sober recounting of the Bolshevik saga, stripped bare of socialist romanticism, focused equally on the micro- and macroeconomics of administrative command planning, and Russia's post-Communist market system. Understanding the Soviet economic system and the causes of its failure are central to any student's study of Russia's struggle towards a market economy and its prospects for the future.

- New textbook, offering a more sober recounting of the Bolshevik saga, stripped bare of socialist romanticism.
- Focuses equally on the micro- and macroeconomics of administrative command planning, and Russia's post-communist market system.
