You are invited to join a curious mind on a journey to explore the reality we live in—to examine the truth, the half-truth, and the lies. In the Second Collection, Kapuscinski delves into diverse ancient scriptures, as well as into the latest scientific discoveries. The author also demonstrates his unique perspective on subjects dealing with life and death. The Essays do not claim to give you facile answers. They do claim to awaken in you a desire to think for yourself, to rely on your own judgment, to give you confidence to face the world on your own terms.
