“I have to be able to feel the subtleties,” he said, “and the latex gloves take away all sensation.”

Doctor Connor Andrews convinces young and inexperienced Mia Monet to cover for him at his medical practice. He’s always been there for her so she can’t refuse. But she has zero experience with the exams, as a nurse or as a patient. She’s never even had an annual check-up.

She joins him for the last appointment of the day, where an uncooperative patient has to be strapped down for her own safety, and pleasure.

Mia discovers that the doctor’s forbidden method of examination is nothing like she imagined. She has so much to learn, but part of her knows it’s wrong to be taught by someone so familiar. Another part of her doesn’t care.
