Theory of Multivariate Statistics (Springer Texts in Statistics)

Martin Bilodeau, David Brenner

Theory of Multivariate Statistics (Springer Texts in Statistics) Martin Bilodeau, David Brenner
Intended as a textbook for students taking a first graduate course in the subject, as well as for the general
reference of interested research workers, this text discusses, in a readable form, developments from recently
published work on certain broad topics not otherwise easily accessible, such as robust inference and the use
of the bootstrap in a multivariate setting. A minimum background expected of the reader would include at
least two courses in mathematical statistics, and certainly some exposure to the calculus of several variables
together with the descriptive geometry of linear algebra.
