Dropped into Oblivion (Space War and Survival Book 1) Oscar Kerr

Nine Specialists are being dropped into Ector Moon Five's atmosphere.

It's their job to destroy the disturbance deep down below. It's their job to protect and serve the weaker race, humans.

The atmosphere is dark, orange, and something is very wrong.

Rangor Reetzenburg is the master in control of this mission, and as the vessel nears impact, a simple mission turns into something he will never, ever forget. This isn't only a story about surviving what lurks below, but it's a story about space politics gone wrong.

Sometimes, you can't rely on your own government to rescue you. Sometimes, you just have to pray and fight. And sometimes, the rescue party you expect is far from normal.

What this book is about: military science fiction, space war, space horror, science fiction war, sci fi military, space survival, space marines
