## Theory of Prose (Russian Literature) Victor Shklovsky

*Theory of Prose* is one of the twentieth century's most important works of literary theory. It not only anticipates structuralism and poststructuralism, but poses questions about the nature of fiction that are as provocative today as they were in the 1920s. Arguing that writers structure their materials according to artistic principals rather than from attempts to imitate "reality," Shklovsky uses the works of Cervantes, Tolstoy, Sterne, Dickens, and others to give us a new way of thinking about fiction and the world.
