James Gordon, Sharon Curtin

"This book represents truly pioneering work. It brings much needed information about the best of new cancer treatments to those who need it most and it does so with compassion and an inspired bedside manner."-Dean Ornish, M.D. Drawing on the studies and critiques of many of the world's most gifted researchers and clinicians, this book scientifically explores the most promising complementary and alternative therapies-and sifts through the often frustrating and confusing barrage of information and misinformation about them-to provide readers with the direction and help they need to create an individualized cancer-care strategy. Comprehensive Cancer Care includes reports on the most accepted and researched complementary and alternative practices, empowering advice for patients with clear action steps for speaking to doctors, and critical discussion of cutting-edge interventions.
